Warranty – Solar Photovoltaic (PV) Energy System

The PV energy system is installed and in service. The startup is complete; the system is functioning in accordance with manufacturer specifications and is now in service. Our standard warranty term is in effect for 10 years.

The general terms of Warranty are as follows:

1. Self Reliant Solar warranty period is in effect for 10 years, beginning on the date of system start-up, _09/11/17__. The standard warranty shall apply to all PV energy system installations provided by Self Reliant Solar where specific jurisdiction or rebate requirements do not apply.

2. Self Reliant Solar shall correct any deficiencies in installation and craftsmanship during the standard warranty period.

3. Manufacturer's standard parts warranty shall apply for the equipment installed. Self Reliant Solar will provide parts replacement labor and freight during our warranty term, after which customer shall pay for these costs.

4. Warranty work is preformed during regular working hours and is subject to availability of technicians and engineers. Warranty work should in no way be interpreted as maintenance contract or contain emergency service provisions.

5. Self Reliant Solar is not responsible for warranty coverage on any equipment that has been altered by others, repaired by others, tampered, abused, misused, damaged by terrorism, fire, flood, or forces of nature, or issues arising out of unreasonable or improperly maintained equipment.

6. A service call is billable to the owner if the problem is determined to be outside the scope of warranty, in which case a written description of the problem encountered and corrective work performed will be provided. Please note that diagnostic services are not covered unless the problem is warrantable.

Please direct all service calls to our Service Department by calling 1-521-914-1706 or email at service@selfreliantsolar.com.

Thank you for choosing Self Reliant Solar for your solar needs, we look forward to the continued success of your project.

Best regards,

Self Reliant Solar
